Environmental Statement

SOCIAL RESPONSIBILITY

HOW WE THINK ABOUT TODAY WHILE PROTECTING TOMORROW.

Our policy is that of hands on, constantly vigilant strategies, covering all of our business activities. We do not just pay lip service to the various 'green organisations' that will praise and grade. We don't want that, we just want to know that we are able to run a small business with as little environmental impact as possible.

Our aim at Broadhembury is to provide visitors with the best possible location in which to enjoy their leisure time, without damaging or threatening the environment.

We have made the usual changes, and now use low wattage light bulbs, the most water economical plumbing systems, rain water harvesting, low chemical cleaning products and when possible re-cycled paper. Our re-cycling points are constantly developing as we discover more uses for pre-used materials.

Our heating systems are kept up to date, fully serviced and the most economical energy rating available. We have looked at solar panels, but decided that fuel efficient boilers coupled with maximum insulation was a better plan. We haven't joined expensive schemes - which invariably result in the use of even more resources. We go about both the day to day running, and the long term planning of our business constantly looking for ways to manage resources and minimise or re-cycle waste. While protecting the lovely natural environment in which we are situated, we always give thought to the bigger affect our actions may have.

Although we realise that Tourism could have a negative impact on the environment, we also feel we are in a position to do something about this. Everyone likes to travel; our holidays are one of the most important parts of our lives. However, it is not necessary to journey miles to have a relaxing break, short holiday or weekend away. We want to encourage people to look at what's available nearby before joining the traffic jams and hassle of a long journey, especially with children,

FOR OUR VISITORS

Broadhembury is a green and pleasant park in which to enjoy your leisure time. Every facility has been provided to make your caravan or camping holiday relaxing and easy. Our amenities are constantly monitored to ensure that they provide the maximum output for the minimum environmental costs.

A very warm welcome awaits all visitors. We have considered the requirements of our guests - from the very youngest to seniors, doing our best to accommodate everyone's needs wherever possible. Where full access is not possible, we hope that we have made this clear within our published access statement.
